Winter Ice and Snow Tour

Unique winter charm, dynamic ice and snow sports

75. Yanqing Olympic Village

Yanqing Olympic Village is one of the competition zones of Beijing 2022 Winter Olympic Games, which consists of four venues: National Alpine Skiing Center, National Sliding Center, Accommodation Complex and Press Center. Yanqing Olympic Village is situated in Xiaohaituo Mountain, which truly puts into practice the overall design concept of "Green Olympic Games, Green Olympic Villages". With a total construction area of 118,000 square meters, the Olympic Village is able to provide 1,430 beds for athletes and team officers. After the Beijing 2022 Winter Olympic Games, the Yanqing Olympic Village will be upgraded to an eco-tourism resort hotel and the venues will be utilized to create an international first-class skiing venue, an international Winter Olympic heritage tourism resort, a domestic four-season leisure and vacation park, with an outdoor sports and ice and snow entertainment place.

76. National Speed Skating Oval

The National Speed Skating Oval, neighboring to Beijing Olympic Park, is the landmark venue and the only newly-built ice competition venue in Beijing main competition zone for the Beijing 2022 Winter Olympic Games. Twenty-two crystal "ribbon-shape" curved-surface glass curtain walls encircle the whole building, so it is also known as "The Ice Ribbon". The main venue of the National Speed Skating Oval is 33m high, covering a construction area of 80,000 square meters, able to provide 12,000 seats. Its ice surface is also the largest in Asia, about 12,000 square meters. After the Olympic Games, the National Speed Skating Oval can be operated continuously and may at one time receive more than 2,000 people for all ice sports such as ice hockey, speed skating, figure skating and curling. It is not only a training venue for athletes but also a place for tourists to play winter sports.
